

ECONO-SPAN SHELVING

The DMD EconoSpan Shelving System is a cost-effective medium duty longspan shelving system. The boltless design ensures quick and easy assembly combined with simple shelf adjustability. The bays are free standing however units can be joined together to create a continuous row.

APPLICATIONS:

- General storage
- Carton and Box storage
- Garage storage
- Medium duty industrial storage

FEATURES AND BENEFITS:

- Easy to build using only a mallet
- Load capacity up to 250Kg per shelf
- 55mm Z-beams creates a recess to allow for a 18mm particle board shelf insert. The shelf is retained inside the Z-beam, making the shelf smooth and safe.
- The shelf insert is supported along all four edges, providing greater stability and less deflection
- Smooth electro-galvanised zinc plated for longevity
- Extra shelf levels available on request

Frame Height	1829 - 2134mm
Frame Depth	430 - 570mm
Frame Length	1210 - 1810 - 2410mm
