

CARTON LIVE STORAGE

Carton Live Storage System is an exceptional solution for fast moving products, providing quick and easy access to items.

Carton Live Storage (CLS) can be used in tough conditions such as cool rooms and reduces labour utilisation by providing faster picking. Using First In First Out (FIFO) picking means no outdated stock remains on the shelf, enabling 100% stock rotation.

APPLICATIONS:

- Cold Storage Facilities
- Fast moving box items

FEATURES AND BENEFITS:

- Smaller floor area required
- Reduced labour costs
- Separate picking and restocking aisles
- Full and split case picking can be made within the same bay
- Better consolidation of picks
