

SELECTIVE PALLET RACKING

The Selective Pallet Racking System is the ideal solution for any warehouse that holds a large range of stock on pallets. Stock rotation is easy with maximum accessibility and direct access to all pallets. All racking in compliance with AS4084-2012.

APPLICATIONS:

- Palletised Goods
- Carpet Storage
- Furniture Racks
- Tyre Racks
- Archive Storage
- High rise Shelving
- Art Storage

FEATURES AND BENEFITS:

- Superior quality steel enabling minimal operational costs
- 100% accessibility with good stock rotation
- Unrestricted access to all pallets to full height of warehouse
- Compatible with most forklift trucks
- Easy beam adjustment accommodates variable pallet heights
- Can be configured to suit any load type
- Lower level pallets can be hand-picked
- Economical shelving beams can be added for hand picking

Beam Length	Beam Section	Beam Capacity
1372mm	80mm	3T
1524mm	80mm	2.7T
1829mm	80mm	2.1T
2133mm	80mm	1.8T
2438mm	80mm	1.5T
2591mm	80mm - 100mm - 120mm	1.4 - 2.5 - 3.2T
2743mm	80mm - 100mm - 120mm	1.3 - 2.3 - 3T
3048mm	120mm	2.3T
3350mm	130mm	2.4T
3658mm	130mm	2.4T
3810mm	140mm	2.2T
4267mm	150mm	2.3T

Frame Height	Frame Depth
914mm	609 - 838 - 1219mm
1829mm	609 - 838 - 1219mm
2133mm	609 - 838 - 1219mm
2438mm	609 - 838 - 1219mm
3048mm	609 - 838 - 1219mm
3688mm	609 - 838 - 1219mm
4267mm	609 - 838 - 1219mm
4877mm	609 - 838 - 1219mm
6096mm	609 - 838 - 1219mm
6704mm	609 - 838 - 1219mm
7315mm	609 - 838 - 1219mm

**Custom height frames available upon request*

**All beam loads are given as a UDL load for a pair of beams*
