

## MEZANNINE PLATFORMS

Mezzanine platform solutions expand the capacity of storage areas by maximising the height of the facility rather than the floor area. The quick and easy bolt system accelerates installation with minimal disruption to the workplace. Mezzanine solutions can be extended, modified and relocated effortlessly to suit client requirements.

### APPLICATIONS:

- Warehouse Storage Facilities
- Office Facilities
- Production Facilities

### FEATURES AND BENEFITS:

- Australian manufactured and fully customised solution
- All mezzanine floors supplied with certified engineering drawings
- Stocked components offer rapid response times
