

PICK BINS

The DMD Pick bins are used to store single Stock Keeping Units (SKU's) only and are ideal for hygienic applications due to the easy clean shape

APPLICATIONS:

- Warehouse storage
- Hospital storage
- Restaurants storage

FEATURES AND BENEFITS

- Large flat multiple adhesive labels area for identification, barcode or location marking
- Handle for easy removal from shelf
- Easy-clean surfaces allowing for zero dust to collection
- Curved base allowing for easy scoop up of small items
- Pick bins up to 300mm depth can be mounted on shelves or louvre panels
- 400mm depth pick bins are designed for standard 900mm x 400mm panel shelving
