Karen Vi'Nova - Corporate HSE

Kelly Tunnecliffe - Project Controls

CLIENTS BRIEF:

The clients existing storage system was outdated and non compliant. As a result the client was experiencing a high frequency of damage to existing racking and products in storage.

DMD'S SOLUTION:

DMD provided a turnkey large scale pallet racking and drive-in racking systems for the new warehouse as per the clients specifications. DMD designed a system that was more robust and operator friendly that caters for a variety of product sizes and minimises potential stock damage as well as rack repairs and improves safety throughout the warehouse. DMD provided custom barriers, guards and signage with the package.
